LA PINE CONSTRUCTION PRE-APPRENTICESHIP · SUMMER 2026

# Building Futures in La Pine

Five weeks, twelve students, and a whole community behind them.

| | | | |
|---|---|---|---|
| **12** students completed | **100%** completion rate | **72** industry credentials earned | **$3,000** sends one student through |

### WHY IT MATTERS

La Pine has fewer jobs and lower wages than the rest of Central Oregon, and the nearest apprenticeship training is an hour away in Redmond. This program brings construction training home.

### WHAT STUDENTS DID

Worked on a whole-house remodel with Habitat for Humanity, toured major job sites, and practiced resumes and interviews with local leaders.

### WHAT THEY EARNED

8 college credits, a BOLI pre-apprenticeship certificate, an NCCER Blue Card, CPR certification, and OSHA 10.

*"In just three weeks, COCC Pre-Apprenticeship students helped Habitat for Humanity preserve an elderly homeowner's house, delivering repairs that otherwise would never have happened."*

**— Kim Hammond, Habitat for Humanity La Pine Sunriver**

*"The money allowed me to support my family without taking another job."* — Program graduate

### THANK YOU TO OUR FUNDERS AND PARTNERS

Shanda · COIC / WIOA · South County Collaborative · New Sun Energy · St. Charles Medical Foundation · Newberry Regional Partnership · Habitat for Humanity La Pine Sunriver · Central Oregon Community College

## HELP BUILD THE NEXT COHORT. $1,200 tuition + $1,800 stipend = $3,000 per student.
